Agromet Advisory.

**Rabi Paddy:**
1. Survey for the Stem borer attack in paddy and manage by spraying Triazophos @ 2 ml/liter of water beyond ETL.
2. Go for water management in SRI Paddy.
3. Use cono weeder and incorporate the weeds in the field.
4. Due to wide diurnal variation in temperature, there may be chances of Blast, to manage this apply Tricyclazole @ 0.6 g /liter of water.

**Rabi Pulses:**
1. Go for intercultivation at 2-3 weeks of the crop. Go for irrigation at peak flowering of pulses.

**Ginger:**
1. Sow the ginger varieties like Suprava, Suruchi, Suravi in irrigation facility field.
2. Seed rate is 6-8 q/acre.
3. Each piece should weigh 15-20 g having 2-3 eyes.

**Onion:** When the leaves turn yellow and fall down then go for harvesting. Keep the neck upto 2-3 cm and cut the top portion and roots. Harvest due to clear and sunny weather.

**Livestock:** Provide sufficient clean drinking water to animals. Contact departmental personnel for vaccination. Keep the animal shed clean and dry.

**Pisciculture:** Manage the feed for proper growth of fish. Also go for manuring. For any problem related to agriculture sector, please dial the toll free number 1551.
